Action Taken: Minor Amendment Resolution 2601-05

NJDOT had requested a project cost increase. This action increases SPR funding for Planning Study (PLS) in FFY 2026 by $19.300M from $20.000M to $39.300M. The reason for the change is to support an additional $15.000M for the Year 2 authorization of the CY 2025-2026 SPR/Management Systems Work Program and $4.300M for the Year 2 authorization of the FHWA SPR Program.

DB #	S2101	**Project Name:**	Martin Luther King, Jr. Boulevard (Mediterranean Avenue to Route 30)	
		Project Phase:	(CON) Construction	

Action Taken: Minor Amendment Resolution 2601-04

Atlantic City has requested to delete DBNUM S2101 from the TIP and request a new DBNUM (S2601) for the Fairmount Avenue Paving Project, use the previously programmed construction costs for the new project, and add it to the FFY 2026 TIP. Martin Luther King Jr. Boulevard was programmed for $1.450M in both FFY 2025 and FFY 2026, but Atlantic City completed the project in FFY 2025 and requested to reallocate the FFY 2026 TIP funding to Fairmount Avenue. The Fairmount Avenue Paving Project will extend from Christopher Columbus Boulevard to Sovereign Avenue and includes the milling and paving of the full-width of Fairmount Avenue, curb and sidewalk improvements where needed, spot base repairs if needed, signage and striping for pedestrian and vehicular safety, and ADA accessible ramps. The pavement on Fairmount Avenue has excessive roughness, rutting, and potholes that could result in safety problems.

Under the provisions of federal law and regulation, the approved TIP can be modified or amended in order to add new projects, delete projects, advance projects into the first year, and accommodate cost and phase of work changes or major scope changes to a project. This table lists all of the changes that have been made to the TIP as a result of the TIP Amendment and Modification process.

Action Taken: Minor Amendment Resolution 2601-03

NJDOT has requested to add this project to the FFY 2026 TIP. The subject project was not authorized during FFY 2025 due to delays with the execution of the grant agreement. Additional costs are due to the updating of ITS equipment, installation of a variable message sign, additional traffic signal upgrades, and complete replacement of various utilities contained within the project, which we previously thought we would avoid, but due to aging utility infrastructure and many emergency repairs, it was determined that they need to be replaced. In addition, the general cost of doing business has increased due to inflation and the increased cost of materials.
