**I. INTRODUCTION**

This Request for Proposals is a 60-page document. Please read each page, including, without limitation, all attachments.

The terms "firm," "contractor," "proposer," "vendor," "consultant," "and respondent" may be used interchangeably throughout this document.

**A. General**

The South Jersey Transportation Planning Organization (SJTPO) is soliciting proposals from qualified firms, or groups of firms, to lead a scenario planning initiative for the SJTPO to update its long-range Regional Transportation Plan 2050 (RTP 2050). This work is included as a one-year study in the SJTPO Draft Fiscal Year (FY) 2024 Unified Planning Work Program ([www.sjtpo.org/UPWP](http://www.sjtpo.org/UPWP)), identified as Task 24/402. Technical proposals must be prepared and submitted in accordance with the goals, requirements, format, and guidelines presented in this RFP document.

The SJTPO is the designated Metropolitan Planning Organization (MPO) for Atlantic, Cape May, Cumberland, and Salem Counties. As such, the SJTPO has responsibility or oversight for all federally funded surface transportation planning activities in the region.

The SJTPO, in accordance with the law, reserves the right to reject any and all proposals received in response to this RFP, when determined to be in the SJTPO's best interest and to waive minor non-compliance in a proposal. The SJTPO further reserves the right to make such investigations as it deems necessary as to the qualifications of any and all firms submitting proposals in response to this RFP. In the event that all proposals are rejected or if the SJTPO, at any time, deems the number of qualified firms receiving designations as the result of this RFP to be insufficient to meet the potential needs of the SJTPO, or for any other reason, the SJTPO reserves the right to re-solicit proposals. The SJTPO shall not be deemed obligated at any time to award any contract to any proposer.

**Proposals should explicitly address the full scope of the project as described within this section.** Proposals should detail any concerns which impact the successful completion of the project as described herein or if additional innovations or alternative tasks are recommend enhancing the intended project scope.

### A. Background

During the review of the [Regional Transportation Plan \(RTP\) 2050](#), SJTPO's current long-range plan, the Federal Highway Administration (FHWA) recommended SJTPO consider opportunities to conduct scenario planning for developing the next long-range regional transportation plan to better inform decisions. Scenario planning identifies a range of potential outcomes and impacts to evaluate and manage the response. It is a visualization of assumptions based on the past, current, and future conditions of the SJTPO region to influence decision-making.

This consultant-led study shall include steps common in a scenario planning process, focusing on identifying key issues relevant to the SJTPO region, trends, and associated variables, envisioning scenarios or plausible futures based on these trends, and exploring the implications of those scenarios.

A key component of the scenario planning process will be public outreach. A stakeholder advisory committee will be convened as part of this process with **two TAC Workshops and two public meetings**. In addition to SJTPO staff, stakeholders and the public will evaluate the desirability of the various scenarios through specialized tools, surveys, or other means. The scenario planning exercise results will ultimately refine the vision, goals, and strategies in the next RTP 2050. **A preliminary draft schedule for the next RTP 2050 has been shared, illustrating major milestones, including the month for workshops and public meetings.**

The overarching vision of SJTPO's current RTP 2050 is ***"a transportation system based on regional collaboration that moves people and goods in a safe and efficient manner, inclusive of all modes and users,"*** that lays the groundwork for the entire content of the RTP. Following the RTP vision are the plan goals. The goals in the current RTP 2050 are based on the metropolitan planning factors, as outlined in the federal transportation authorizing legislation at [23 U.S.C. 134\(h\)](#). The strategies, or specific actions, are developed to achieve the RTP's goals and vision.

This scenario planning effort will allow SJTPO, its stakeholders, and the public to reevaluate the vision, goals, and strategies by exploring up to four different possible futures (impending scenarios of the transportation system). This effort will intend to develop the next RTP by completing an extensive scenario planning process. This effort will lead to a future transportation system that will be even more robust and responsive to a wide variety of trends and different factors.

This effort is a critical path in developing the next RTP 2050. The results of this scenario planning study will be completed in conjunction with the initial draft process of the RTP document.

Specific deliverable dates have been identified below within each task. The consultant should evaluate the dates for reasonableness. SJTPO is amenable to alternative task deliverable due dates that ensure a final project completion date of late May 2024.

## B. Content

### Task 1. Coordination and Administrative Tasks

Regular communication shall occur between the consultant's project manager and the SJTPO project manager. The firm will document all communications and deliver them to SJTPO. Meetings require meeting minutes to be prepared, whereas phone conversations require a follow-up email summarizing talking points and decisions made. These should generally be provided to SJTPO within three (3) business days. It should be assumed that all coordination meetings shall take place virtually.

The consultant shall provide brief status updates every two weeks to SJTPO via email. The status updates should describe tasks completed in the past two weeks, upcoming tasks for the next four weeks, any delays that affect the schedule of the project, and any assistance that will be needed from SJTPO or other stakeholders in the coming weeks. Updates should also note the status of DBE/ESBE firm in achieving its goal and highlight any concerns about achieving that goal as soon as it becomes apparent.

As needed, the consultant is to produce and update a detailed project schedule, including the expected meeting dates, task completion dates, and other tasks and milestones. All work is anticipated to be completed by late May 2024, as stated in Section D. Schedule.

<b>Deliverable 1.a</b>	<b>Bi-weekly emails:</b> The consultant will provide updates to SJTPO's project manager on a bi-weekly basis as described above. This can consist of virtual meetings or emails, where appropriate.
<b>Deliverable 1.b</b>	<b>Meeting and discussion summaries:</b> The consultant will provide minutes of meetings and email summaries of all conversations, including a summary of talking points and decisions made within three (3) business days.
<b>Deliverable 1.c</b>	<b>Project Schedule:</b> Provide an updated schedule, as needed, with expected meeting dates, task completion dates, and bi-weekly conference call schedule.

### Task 2: Creation of a stakeholder advisory committee

Public outreach will be a key component of this scenario planning process. At the project's outset, a stakeholder advisory committee shall be assembled to help guide this project. Stakeholders will include members of SJTPO's Technical Advisory Committee (TAC) as well as representatives from academia from local colleges, such as Rowan University or Stockton University,

representatives from the business community and local chambers of commerce, and members of non-profit and/or faith-based organizations with a vested interest in the community and the region. The consultant team shall be responsible for developing a list of stakeholders in consultation with SJTPO staff.

In addition to working closely with the stakeholder advisory committee, during the scenario planning process, **there shall be a minimum of two (2) TAC Workshops and two (2) public meetings that may be led and facilitated by the consultant and/or SJTPO.** Tasks 3 and 5 contain additional details on the content of these workshops.

<b>Deliverable 2</b>	<b>List and contact information of stakeholder advisory committee members</b>
----------------------	---

<b>Initial List due on or before Friday, July 31, 2023</b>
--

### **Task 3: Formulation of Possible Scenarios**

This task will involve the development of possible scenarios or plausible futures that would be appropriate for the SJTPO region. The scenarios will be utilized to help to shape the future vision, goals, and strategies in the next RTP 2050. The approach for developing possible scenarios shall include:

- Predictive: What do we think is going to happen?;
- Normative: How can we make something desirable happen?; and
- Explorative: What could possibly happen?

In exploring scenarios, both desirable and undesirable futures should be considered. Scenarios can encompass changes in demographics, policy, or changes to the transportation system. Possible scenarios could include, but are not limited to, the following:

- Impacts of climate change,
- Restriction on development in flood-prone areas,
- The resurgence of Atlantic City as a year-round tourism destination,
- Increase in teleworking and the effect on transportation infrastructure,
- Growth in e-commerce,
- Trends toward electrification, including increasing electric vehicle (EV) ownership as well as EV make-ready infrastructure, in addition to the increased usage of other alternate-fuel vehicles,
- Trends toward microtransit and ridesharing, including more ride-hailing vendors such as Uber and Lyft,
- Aging of the population and increased immigration,
- Seasonal population trending to a more year-round population,
- Continued out-migration of young people, or middle-aged persons.

The consultant team shall be responsible for developing a list of existing trends and driving forces in consultation with SJTPO staff, TAC, and the established stakeholder advisory committee. To help narrow down the list, the consultant should be prepared to, **at a minimum, develop content**

for a TAC Workshop to discuss possible scenarios that will be carried forward into the scenario planning process. As far as who will lead and facilitate the TAC Workshop, the consultant team should make a recommendation, taking into account the resources of the project team, other demands of the project, and the project budget.

The consultant should provide alternatives within the scope and budget for the consultant and/or SJTPO staff to lead and facilitate the TAC Workshop.

A final list of no more than four scenarios shall be developed to be further evaluated.

In addition to the four future scenarios, the consultant team should establish a baseline analysis of each scenario to serve as an assessment of current conditions of the transportation system as well as regional demographics. This baseline analysis shall serve as a benchmark for comparing alternative scenarios. The analysis shall answer the question of "where are we now?" and can serve as the "business as usual" or "status quo" scenario.

In addition to the TAC Workshop described above, a public meeting shall be convened in November. The consultant will be expected to prepare the content for the public meeting and, as with the TAC Workshop described above, advise on whether they should lead the public meeting or have SJTPO staff should lead the public meeting. The consultant should provide alternatives within the scope and budget.

A [preliminary draft schedule](#) for the next RTP 2050 has been shared, illustrating major milestones, including the month for TAC Workshop and public meeting.

|-------------------------|---|
| <b>Deliverable 3.a</b>  | <b>Draft Technical Memorandum</b> to include listing initial set of scenarios conceived by SJTPO, TAC, and stakeholder committee. Due on or before Wednesday, September 20, 2023.   |
| <b>Deliverable 3.b</b>  | <b>Prepare content and lead presentation for SJTPO Technical Advisory Committee (TAC) Workshop</b> to discuss scenarios. The workshop will be open to the public. While the meeting(s) may be virtual, the consultant should budget for an in-person meeting at Vineland City Hall. The date of the workshop shall be tentatively scheduled for Tuesday, October 10, 2023, at 10:00 am. An alternative to have SJTPO staff lead the workshop shall be provided. |
| <b>Deliverable 3.c</b>  | <b>Prepare content and lead Public Meeting</b> to discuss scenarios. The public meeting shall be advertised and held in November 2023. The exact date and time shall be decided based on consultation with SJTPO staff. An alternative to have SJTPO staff lead the public meeting shall be provided.   |
| <b>Deliverable 3.d.</b> | <b>Final Technical Memorandum</b> to include a maximum of four, fully refined scenarios that will be carried forward in the scenario planning process. Due on or before Thursday, October 26, 2023.   |

**Task 4: Assessment of Scenario Impacts**

In conjunction with the SJTPO staff and the established stakeholder advisory committee, the consultant team will evaluate the impacts of the scenarios using a set of agreed-upon indicators. Indicators, such as total vehicle miles traveled (VMT) or vehicle hours of delay, could be quantitative. Indicators could also be qualitative, such as assessing a particular scenario from subject matter experts.

The consultant should **assess if specific tools** are needed to determine scenario impacts. This could include tools SJTPO already has, such as the South Jersey Travel Demand Model (SJTDM), or open-source software that is readily available, such as the Rutgers FloodMapper, and the FHWA VisionEval. Tools could also include the purchase of specialized software packages that will allow members of the public and stakeholders to evaluate the desirability of the various scenarios. **The purchase cost of the tool must be included in the proposed budget.** Any ongoing fees associated with the tool shall also be identified.

While this exercise is not intended to result in a "preferred" scenario, the consultant should consider applying weights to scenarios as one or two scenarios are likely to be more desirable to the established stakeholder advisory committee and the public relative to other scenarios. The consultant is expected to run whatever model or tool that will be utilized. If the tool to be utilized is the sole possession of SJTPO, such as the SJTDM, the consultant shall direct the SJTPO staff in how the tool will be used in assessing the impacts of a particular scenario.

If the consultant believes a tool is not necessary and/or beneficial to SJTPO's scenario planning process, the consultant should be prepared to describe in their proposal how they propose to evaluate the scenarios and communicate the results to the stakeholders and the public in an engaging manner.

<b>Deliverable 4.a</b>	<b>Technical Memorandum</b> assessing impacts of each of the scenarios, including model output should such a tool be utilized.  <b>Draft Technical Memorandum</b> due on or before Friday, November 10, 2023 <b>Final Technical Memorandum</b> due on or before Friday, November 24, 2023
<b>Deliverable 4.b</b>	<b>Full Model Input and Output, if applicable</b> if a model is utilized that produces specialized output, digital copies of all model input and output files by Friday, January 12, 2024.

**Task 5: Review of existing Vision, Goals and Strategies and incorporation of scenario planning results**

Using the scenario planning process results, the consultant team should work with SJTPO staff, TAC, and the established stakeholder advisory committee to review and evaluate SJTPO's current vision, goals, and strategies. Establishing a vision and specific goals and strategies to achieve the vision are integral parts of the RTP process.

This is completed through a collaborative process involving the public and important stakeholders in the region. Based on this evaluation, the consultant team shall recommend and update the vision, goals, and strategies.

As part of this effort, the consultant team shall, **at a minimum, develop content for a TAC Workshop to summarize the results of the scenario assessment and implications on the vision, future goals, and strategies that may stem from the possible futures, including both "desirable" and "undesirable" outcomes.** The horizon year of SJTPO's RTP will be 2050. As such, the consultant team should identify the impacts of the scenarios minimally through 2050.

**As far as who will lead and facilitate the TAC Workshop, the consultant team should make a recommendation, taking into account the resources of the project team, other demands of the project, and the project budget.**

To achieve the refined vision, SJTPO's goals and strategies shall be updated. As stated above, SJTPO's current goals are based on metropolitan planning factors. The scenario planning process and their results will be utilized to shape the regional transportation system's overall vision, goals, and underlying strategies.

**In addition to the TAC Workshop described above, a public meeting shall be convened. The consultant will be expected to prepare the content for the public meeting and, as with the TAC Workshop described above, advise on whether the consultant should lead the public meeting or have SJTPO staff lead the meeting. The consultant should provide alternatives within the scope and budget.**

**A [preliminary draft schedule](#) for the next RTP 2050 has been shared, illustrating major milestones, including the month for workshops and public meetings.**

- Deliverable 5.a** **Technical Memorandum listing baseline conditions, as well as future goals and aspirations that will be curated for future efforts**
- Draft Technical Memorandum** due on or before Friday, December 8, 2023  
**Final Technical Memorandum** due on or before Friday, January 12, 2024
- Deliverable 5.b** **Prepare content and lead SJTPO Technical Advisory Committee (TAC) Workshop** to discuss results of scenario evaluation, including impacts. While the meeting(s) may be virtual, the consultant should budget for an in-person meeting at Vineland City Hall. The date of the workshop shall be tentatively scheduled for Tuesday, February 13, 2024 at 10:00 am. An alternative to have SJTPO staff lead the workshop shall be provided.
- Deliverable 5.c** **Prepare content and lead public meeting** to discuss the results of scenario evaluation. The public meeting shall be advertised and held in March 2024. The exact date and time shall be decided based on consultation with SJTPO staff. An alternative to have SJTPO staff lead the public meeting shall be provided.
- Deliverable 5.d** **Technical Memorandum**, which will evaluate each of the scenarios and future implications, including goals and strategies. The memorandum should also include the results of the February workshop. Due on or before Friday, March 8, 2024.

### Task 6: Culmination and Final Technical Report

At the conclusion of the scenario planning process and the public outreach, the final scenarios and results will be packaged into a final technical report that will summarize the scenario planning process, clearly denote the final scenarios and their respective scores based on the agreed-upon indicators and summarize the potential actions, investments, and policies that will help the region to achieve its vision and desired outcomes. The final technical report will be included as a chapter and/or appendix in the next RTP 2050.

- Deliverable 6** **Technical Memorandum** summarizing entire scenario planning process, from initial goals, brainstorming of scenarios, to scenario evaluation, and how results were incorporated into next RTP 2050. This final technical memorandum can include the technical memoranda from the previous tasks, including the composition of the established stakeholder committee as well as minutes of the meetings and workshops.
- Draft Technical Memorandum** due on or before Friday, March 24, 2024  
**Final Technical Memorandum** due on or before Friday, May 10, 2024

### C. Schedule

SJTPO anticipates a Notice to Proceed in mid-July 2023. The entire project is anticipated to be completed by late May 2024.

## III. CONSULTANT SELECTION

SJTPO's consultant selection is a qualifications-driven process. Selection is based primarily on an assessment of the technical qualifications of responding firms. However, as a project that does not relate to a direct Planning or Engineering element, the value, quality, and cost of each proposal will also be considered to ensure that public funds are utilized efficiently and in accordance with the SJTPO's mission. A review committee will evaluate each proposal and may recommend firms to present additional information and appear for interviews. Or, the proposal may be the sole basis for the selection. Selections will be made at the sole discretion and judgment of the SJTPO.

The following criteria have been established to guide the evaluation of each consultant proposal with each criterion weighted as indicated below. The percentages provided for each criterion are approximate and may vary, depending on the subject matter of the RFP.

### A. Technical Approach (Criterion weight: 40 percent)

1. Demonstrate a clear understanding of the effort and products required.
2. Explicit consideration of the features listed in Section II, *Scope of Work*.
3. Innovations or efficiencies to be used in completing the project with descriptions of how they add value to the project.
4. Demonstrate an ability to perform needed tasks and meet the stated completion date.
5. Quality, clarity, and thoroughness in addressing required tasks and submission guidelines.
6. Demonstrate the ability to complete the project within the schedule stated in this document.

### B. Value Given Stated Cost (Criterion weight: 20 percent)

1. Thoroughly addresses the full scope of the project as described within the RFP and includes a cost.
2. Demonstrates a reasonable cost, particularly when evaluated against all of the elements included in the technical scope, demonstrating a great overall value to SJTPO.
3. Innovations proposed that add value for SJTPO or add efficiencies to the project can enhance this evaluation.

### C. Firm/Staff Qualifications (Criterion weight: 30 percent)

1. Demonstrate successful experience of the firm or team (particularly recent) on similar projects.
2. Demonstrate expertise in specialized areas required for this project.
3. Firm(s) references submitted with the proposal.
4. Availability of resources needed to successfully complete the project.
5. Staffing Plan demonstrates staff (particularly Project Manager) ability to successfully complete project.

6. Resumes demonstrate staff (particularly Project Manager) experience successfully implementing similar projects.

**D. DBE/ESBE Utilization** (Criterion weight: 10 percent) (see Section IV for additional information related to the DBE/ESBE criterion)

1. DBE/ESBE firm must be explicitly identified. If a specific DBE/ESBE firm is not identified, a zero percent DBE/ESBE commitment will be assumed.
2. Staffing Plan clearly states the hours and specific tasks of DBE/ESBE staff as well as dollar figures or each and percent of the total budget to be dedicated to DBE/ESBE firm(s).
3. Technical Proposals should explicitly indicate the type of work to be completed by the DBE/ESBE firm(s). This information will be used to assess the quality of work to be completed by the DBE/ESBE firm(s).
4. If a proposer is unable to secure a DBE/ESBE firm to meet the DBE/ESBE goal, the proposer would need to document in their proposal that a good faith effort was made to meet the goal. See Section IV for the definition of DBE/ESBE firms for more information about documenting a good faith effort. SJTPO will, at its discretion, award points to firms that meet/exceed the DBE goal or satisfactorily document in their proposal that a good faith effort was made in meeting the DBE goal.

Federal and state goals for DBE/ESBE participation must be addressed explicitly in the proposal. This is satisfied by stating the percentage of total project cost devoted to DBE/ESBE firm involvement in the Technical Proposal. See Section IV for the definition of DBE/ESBE firms. Note: SJTPO utilizes the most recent NJDOT federally approved DBE/ESBE goal (effective 10/1/2019), which is 13.23 percent.

The highest-ranking firms may be invited, at the option of SJTPO, to an interview to present relevant details of their proposals and introduce key staff.

The cost proposals must include a price and level of effort for the Scope of Work. All other charges, such as fringe benefit, overhead, profit, etc., must be identified, yielding a total project cost. Proposals and costs should address the full scope of the project as described within the RFP. Proposals should detail any concerns which impact the successful completion of the project as described herein or if additional innovations or alternative tasks are recommended to enhance the intended project scope. Cost proposals must include all tasks or alternatives discussed within the technical proposal. If applicable, multiple cost scenarios are acceptable.

#### **IV. AWARD OF CONTRACT**

The SJTPO will act to award a contract to the successful proposer or to reject all proposals within ninety (90) calendar days after receipt of the proposals as prescribed by law unless an extension is obtained in accordance with SJTPO rules and applicable law.

Upon selection, SJTPO will negotiate a final price with the selected firm. Additional amendments to a proposal may also be negotiated. Selected firms are expected to sign the final form of contract.

The contents of a proposal, and any negotiated amendments, may be incorporated into the final contract. If the SJTPO and the selected firm cannot negotiate an acceptable final contract, negotiations will be terminated and the SJTPO will initiate discussions with the second-ranked firm.

Contracts awarded may be amended to provide for additional services that are closely related to the services requested in this RFP. Any contract amendment for closely related services must be in writing and approved by the SJTPO.

**The SJPTO further reserves the right to reject all proposals and issue a new Request for Proposals. Late proposals will not be evaluated and will be returned unopened.**

## **V. DISADVANTAGED BUSINESS ENTERPRISE (DBE) AND EMERGING SMALL BUSINESS PARTICIPATION (ESBE)**

### **A. General**

Regulations of the Department of Transportation relative to Non-Discrimination in Federally assisted projects of the Department of Transportation (49 CFR Part 21) are made part of the Agreement. In order to ensure the State of New Jersey Department of Transportation (NJDOT) achieves its federally mandated statewide DBE goal, SJTPO encourages the participation of Disadvantaged Business Enterprise (DBE) or Emerging Small Business Enterprise (ESBE), as defined below, in the performance of consultant contracts financed in whole or in part with federal funds. The sub-recipient shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts.

**1. Disadvantaged Business Enterprise (DBE)** is defined in 49 CFR Part 26, as a small business concern (from Section 3 of the Small Business Act), which is:

- a. At least 51 percent owned by one or more 'socially and economically disadvantaged' individuals, or in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more 'socially and economically disadvantaged' individuals, and
- b. Whose management and daily business operations are controlled by one or more of the 'socially and economically disadvantaged' individuals who own it.

'Socially and economically disadvantaged' is defined as individuals who are citizens of the United States (or lawfully permanent residents) and who are: "Black Americans," "Hispanic Americans", "Native Americans," "Asian-Pacific Americans", "Subcontinent Asian Americans", "Women" (regardless of race, ethnicity, or origin); or "Other" disadvantaged pursuant to Section 8 of the Small Business Act).

**2. Emerging Small Business Enterprise (ESBE)** is defined as a firm that has met the following criteria and obtained small business certification as an ESBE by The State of New Jersey Department of Transportation:

- a. A firm must meet the criteria for a small business as defined by the Small Business Administration in 13 CFR Part 121, which includes annual receipts from all revenues,

including affiliate receipts which equates to the annual arithmetic average over the last 3 completed tax years, or by the number of employees.

- b. The small business must be owned by individuals who do not exceed the personal net worth criteria established in 49 CFR Part 26, which is \$1,320,000. All appropriately certified DBEs fall into this definition due to their size.

## **B. Policy**

The consultant agrees that DBE/ESBE firms shall have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this Agreement, the contractor and its subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of USDOT-assisted contracts in accordance with 49 CFR Part 21. DBE requirements of 49 CFR Part 23 applies to this agreement. The SJTPO strongly encourages the use of DBE/ESBEs in all of its contractual efforts.

## **C. Certified DBE/ESBE Firms**

A list of certified ESBE firms is compiled and is effective for contracts on a per calendar year basis. Current guidance on DBE/ESBE is available on the website of the New Jersey Department of Transportation ([www.state.nj.us/transportation/business/civilrights](http://www.state.nj.us/transportation/business/civilrights)). Firms who wish to be considered for DBE/ESBE certification are encouraged to contact the NJDOT Office of Civil Rights directly for information on the certification process. Once a firm is certified, the federal portion of the dollar value of the contract or subcontract awarded to the DBE/ESBE is generally counted toward the applicable DBE/ESBE goal. If state matching and/or non-matching funds are also awarded to a DBE/ESBE, the total dollar value of the DBE/ESBE contract or subcontract may also be counted toward the applicable DBE/ESBE goal.

There are only two lists that count toward meeting this DBE/ESBE goal. Firms should check these sites before submitting a proposal.

1. New Jersey ESBE: [New Jersey DOT - Disadvantaged Business Enterprise Management System \(dbesystem.com\)](http://New Jersey DOT - Disadvantaged Business Enterprise Management System (dbesystem.com))
2. New Jersey DBE: <https://njucp.dbesystem.com/>

Some certifications have similar requirements, such as MBE, SBE, or any similar certifications in another state – THESE DO NOT COUNT for this goal.

## **D. Consultant Documentation**

If applicable, the Consultant must demonstrate sufficient reasonable efforts to meet the DBE/ESBE contract goals. Additionally, SJTPO has a long-standing commitment to maximizing business opportunities available to DBE/ESBE firms. The consultant's contract is subject to all federal, state, and local laws, rules, and regulations, including but not limited to, non-discrimination in employment and affirmative action for equal employment opportunity. The consultant's contract obligates the consultant to aggressively pursue DBE/ESBEs for participation in the performance of contracts and subcontracts financed in whole or in part with

Federal funds. The consultant cannot discriminate on the basis of race, color, national origin, or sex in the award and performance of federally assisted contracts. The consultant contract specifies the DBE/ESBE goal and the DBE/ESBE participation rate for that contract, if applicable. The prime consultant contract must document, in writing, all of the steps that led to any selection of the DBE/ESBE firm(s). Before the award of a consultant contract, the consultant must demonstrate sufficient reasonable efforts to utilize DBE/ESBE firms. SJTPO utilizes the most recent NJDOT federally approved DBE/ESBE goal (effective 10/1/2019), which is 13.23 percent.

If at any time a firm intends to subcontract or modify any portion of the work already under contract or intends to purchase material or lease equipment not contemplated during the original preparation of the cost proposal, the firm must notify SJTPO in writing. If, as a result of any subcontract, modification, purchase order, or lease, the actual DBE/ESBE or participation rate for the consultant's contract is in danger of falling below the agreed-upon DBE/ESBE participation, then a request must be made for a DBE/ESBE Goal Exemption Modification through SJTPO.

#### **E. Good Faith Efforts**

If the contract goal is not met by the apparent successful firm, evidence of good faith efforts must be presented to the SJTPO for consideration.

To demonstrate sufficient reasonable efforts to meet the DBE or ESBE contract goals, a respondent shall document the steps it has taken to obtain DBE or ESBE participation. Examples of sufficient effort include, but are not limited to, the following efforts:

1. Written notification to DBEs or ESBes that their interest in the contract is solicited.
2. Efforts made to select portions of work proposed to be performed by DBEs or ESBes to increase the likelihood of achieving the stated goal.
3. Efforts made to negotiate with DBEs or ESBes for specific proposals including at a minimum:
  - a. The names, addresses, and telephone numbers of DBEs or ESBes that were contacted;
  - b. A description of the information provided to DBEs or ESBes regarding the scope of work for the specified solicitation; and
  - c. A statement of why additional agreements with DBEs or ESBes were not reached.
4. Information regarding each DBE or ESBE the contractor contacted and rejected as unqualified and the reasons for the contractor's conclusion.
5. Efforts made to assist the DBE or ESBE in obtaining bonding or insurance required by the contractor.

More information on documenting a good faith effort can be found here:

Dear Business Representative:

Recently enacted State law (Public Law 2001, c.134) requires all contractors and subcontractors with State, county and municipal agencies to provide proof of their registration with the Department of the Treasury, Division of Revenue. The law became effective September 1, 2001.

Our records indicate that you are currently registered with the Division of Revenue, and accordingly, we have attached a Proof of Registration Certificate for your use. If you are currently under contract or entering into a contract with a State, county or local agency, you must provide a copy of the certificate to the contracting agency.

Please note that the law sets forth penalties for non-compliance with the provisions above. See N.J.S.A. 54:52-20.

Finally, please note that the new law amended Section 92 of the Casino Control Act, which deals with the Casino service industry.

Should you have any questions or require more information about the attached certificate, or are involved with the casino service industry, call (609) 292-1730.

Thank you in advance for your consideration and cooperation.

Sincerely,
