Part I: Evaluation by Project Selection Committee	project score / possible points
<b>Section 1: Project Information</b> (out of 15 possible points)	
Project eligibility based on CMAQ & CRP project eligibility requirements from FHWA.	/ 5
Project consists of a detailed description. Project details must include size, scope, location, and timetable as well as proposed improvements, needs, primary stakeholders, and resources such as cultural assets.	/ 10
<b>Section 2: Air Quality Benefit</b> (out of 50 possible points)	
The emissions benefit is supported in research and included in the application.	/ 10
The emissions benefit analysis is complete, as specified. A quantitative analysis is required such as signal improvement, or alternative fuel vehicles; a qualitative analysis is only accepted when an emissions benefit analysis is unable to accurately quantify project such as education, or outreach	/ 20
The project is cost effective, as specified. The estimated emissions reduction in kilogram per dollar spent over the lifecycle of the emission benefit.	/ 20
<b>Section 3: Preliminary Environmental Screening</b> (out of 15 possible points)	
The project supports environmental or cultural issues as specified in the preliminary environmental screening, and cultural resources section of the application.	/ 10
The project includes a Map of the Project location with relevant environmental parameters.	/ 5
Subtotal Score (out of 80 possible points)	/ 80
Should this project advance for CMAQ or CRP funding? <input type="checkbox"/> Yes, this year <input type="checkbox"/> Yes, this year but with changes <input type="checkbox"/> No, not this year due to significant changes <input type="checkbox"/> No, not at all	
Comments, concerns, or recommended changes. (please attach additional sheets if needed)	

<b>Part II: Evaluation by SJTPO, and Local Aid</b>	project score / possible points
<b>Section 4: Deliverability</b> <i>(out of 25 possible points)</i>	
The project sponsor has experience with a similar project(s).	/ 5
The project sponsor is capable of maintaining and completing project.	/ 5
The project supports regional goals by which are specified through this improvement program as a reduction of transportation emissions, and an improvement of air quality.	/ 10
The project is able to be advanced without federal funding.	/ 5
The project includes all required materials, as specified. <input type="checkbox"/> Completed Application <input type="checkbox"/> Emissions Analysis <i>as supported by the FHWA CMAQ Toolkit</i> <input type="checkbox"/> Line-Item Cost Estimate <i>including all phases of the project, cost of each phase, and the amount of federal funding requested. All project phases are eligible.</i> <input type="checkbox"/> Detailed Project Schedule <i>indicating the time frame for each phase.</i> <input type="checkbox"/> Map of Project Location <i>including project limits and all relevant environmental parameters.</i> <input type="checkbox"/> Resolution of Support <i>as required by NJDOT in support of the project to be completed.</i>	/ 5
<b>Subtotal Score</b> <i>(out of 25 possible points)</i>	/ 30
Should this project advance for CMAQ or CRP funding?	
<input type="checkbox"/> Yes, this year <input type="checkbox"/> Yes, this year but with changes <input type="checkbox"/> No, not this year due to significant changes <input type="checkbox"/> No, not at all	
Comments, concerns, or recommended changes. <i>(please attach additional sheets if needed)</i>	
<b>Part III: Bonus Evaluation by Project Selection Committee, SJTPO, and Local Aid</b>	project score / possible points
The project includes Environmental Justice Screening and improvements in the specified area.	/ 2
The project includes pedestrian or intersection improvements <i>that are not exclusively recreational as well as outreach promoting safe bicycle use, or other non-motorized forms of transportation.</i>	/ 2
The project addresses an identified equity issue <i>or is located in a historically underserved community.</i>	/ 2
The project implements Intelligent Transportation Systems (ITS) improvements.	/ 2
The project addresses Energy Efficient Alternatives <i>such as replacing street lighting with alternatives.</i>	/ 2
<b>Total Bonus Score</b> <i>(out of 10 possible points)</i>	/ 10
