

FY2024 Local Safety Program Design Assistance Technical Study

3rd St. and Wheaton Ave., City of Millville, Cumberland County, New Jersey

Project Fact Sheet

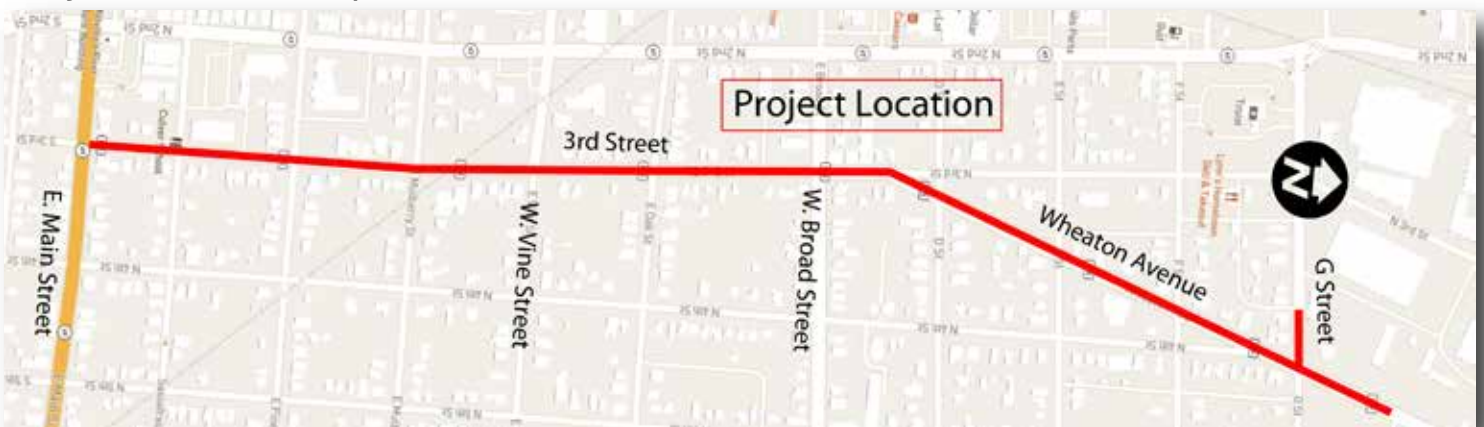

Project Description

The 3rd Street and Wheaton Avenue Traffic Calming and Pedestrian Safety Improvements project is one of four projects (five corridors) in Cumberland County currently progressing through SJTPO's Local Safety Program. These projects were developed as part of the *Cumberland County Bicycle and Pedestrian Safety Action Plan* in 2020 and received federal funding to improve the safety and accessibility of each corridor.

3rd Street/Wheaton Avenue serves as a residential street and a north-south connector between Millville and Vineland. The project area experiences high speeds inconsistent with adjacent land use and density within Millville's Center City neighborhood. The identified deficiencies include non-conforming ADA curb ramps, insufficient illumination at intersections, failure of vehicles to stop for pedestrians in crosswalks, high speeds, poor sight lines at skewed intersections, high numbers of vehicle conflict points, long distances between marked crosswalks, and a lack of pavement markings.

Project Location Map

Proposed Improvements (see back for details)

- Curb Extensions / High Visibility Crosswalks
- New Traffic Pattern
- Raised Pavement Markers (RPMs)
- Roadway Width Repurposing
- ADA Improvements
- Intersection Improvements at 3rd Street and Wheaton Avenue
- Intersection Improvements at Wheaton Avenue and G Street

Project Schedule

Concept Development	Preliminary Engineering	Final Design	Construction
<ul style="list-style-type: none"> • Planning • Safety Analysis • Project Selection • Concept Developed <p><i>Completed 2020</i></p>	<ul style="list-style-type: none"> • Survey • Field Walk • Alternatives Analysis • 60% Plan Submission <p><i>Ongoing</i></p>	<p><i>Will commence after Preliminary Engineering</i></p>	<p><i>Will commence after Final Design</i></p>
