Atlantic County
LOCAL ROAD SAFETY PLAN
IMPLEMENTATION
YEAR 1 REPORT

March 2026

SJTPO Region
LOCAL ROAD SAFETY PLANS

SJTPO

SafeRoadsSouthJersey.com

Introduction

The Atlantic County Local Road Safety Plan (LRSP) Steering Committee is pleased to provide this progress report to summarize the state of road safety in Atlantic County and share efforts that have been advanced during the first year of the Atlantic County LRSP's implementation.

This report includes the following:

- Crash trends since completion of the LRSP
- Status of infrastructure project implementation
- Status of behavioral strategies implementation
- Public and stakeholder outreach during Implementation Year 1
- Lessons learned and best practices during Implementation Year 1
- Implementation Year 2 recommendations

We hope that readers will find the information helpful. We thank all who have been a part of this work to date, and we encourage your participation in helping us reach our goal of zero fatal crashes on Atlantic County's municipal and county-owned roads by 2050.

Atlantic County Local Road Safety Plan Background

With funding assistance and technical support from the South Jersey Transportation Planning Organization (SJTPO), Atlantic County and its municipalities prepared an LRSP to reduce fatalities and serious injuries on all county and municipal roads. Atlantic County's LRSP was adopted by the Atlantic County Board of Commissioners in November 2024. The LRSP identifies priority infrastructure projects and behavioral strategies for implementation by both Atlantic County government and municipal governments through 2029. A copy of the plan is available publicly on the LRSP website at www.saferoadssouthjersey.com.

The LRSP was developed over a two-year period with input from stakeholders and under the guidance of a steering committee comprised of county and municipal government representatives, including engineers, planners, law enforcement, emergency responders, elected officials, and public works managers.

Four emphasis areas were selected to focus project and strategy selection on the greatest opportunities for fatal and serious injury crash reduction. Emphasis areas were selected based on comprehensive data analysis as well as stakeholder input. The Atlantic County LRSP emphasis areas are shown in Figure 1.

During LRSP development, the Steering Committee held multiple meetings to make key decisions. Three in-person stakeholder workshops were held during the LRSP development process to provide an opportunity for input on safety concerns in the county, priority locations, as well as strategies that could be advanced to improve road user behavior.

Figure 1: Atlantic County Local Road Safety Plan Emphasis Areas

Crash Trends

Figure 2 illustrates the year-to-year trend in fatal and serious injury crashes from 2013 through 2023. Crash data is not available for 2024 or 2025. Figure 2 shows that fatal crashes have hovered near 40 since 2020. Serious injury crashes have seen a 60% increase since 2020.

Trend since 2020

- Annual fatal crashes have remained steady
- Annual serious injury crashes have increased by 60%

Note: The LRSP was completed in 2024, using the most recent full year of crash data, i.e., 2021. The 2021 data, however, had not been certified by NJDOT. The 2021 data in the action plan indicated 36 fatal crashes and 112 serious injury crashes in 2021. Since plan completion, certified full-year data for 2021, 2022 and 2023 have become available. Figure 2 includes certified data for all years.

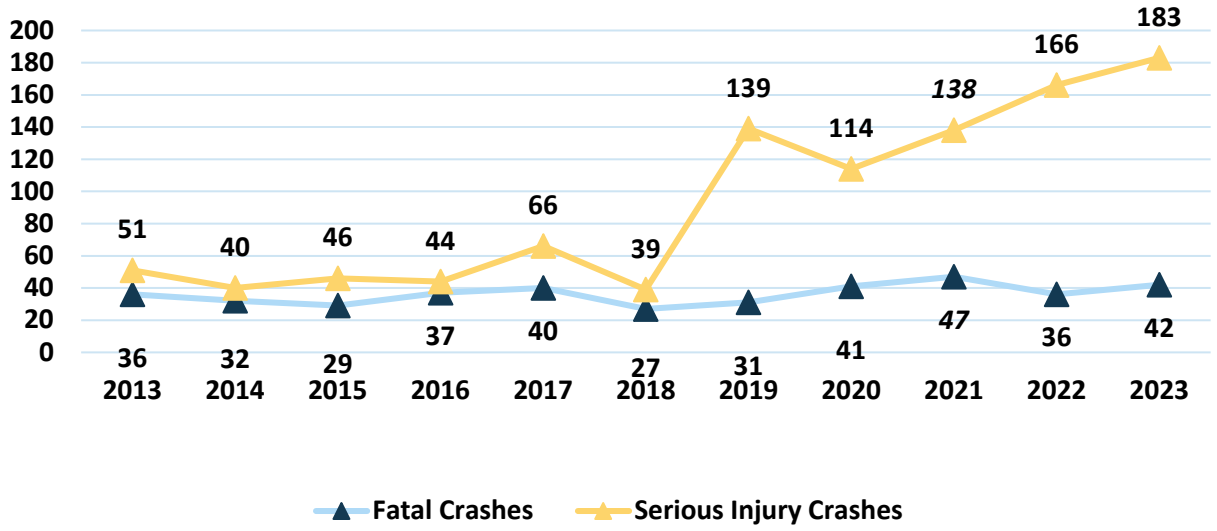

Figure 2. Annual Fatal and Serious Injury Crashes on County and Municipal Roads

Figure 3 compares actual fatal crashes with the LRSP goal to reach zero fatal crashes by 2050. Figure 3 uses five-year annual average fatal crashes rather than year-to-year data presented in Figure 2. A five-year annual average helps to normalize anomalies in year-to-year data to provide a better sense of crash trends. Figure 3 shows that five-year average fatal crashes are trending up as of 2023.

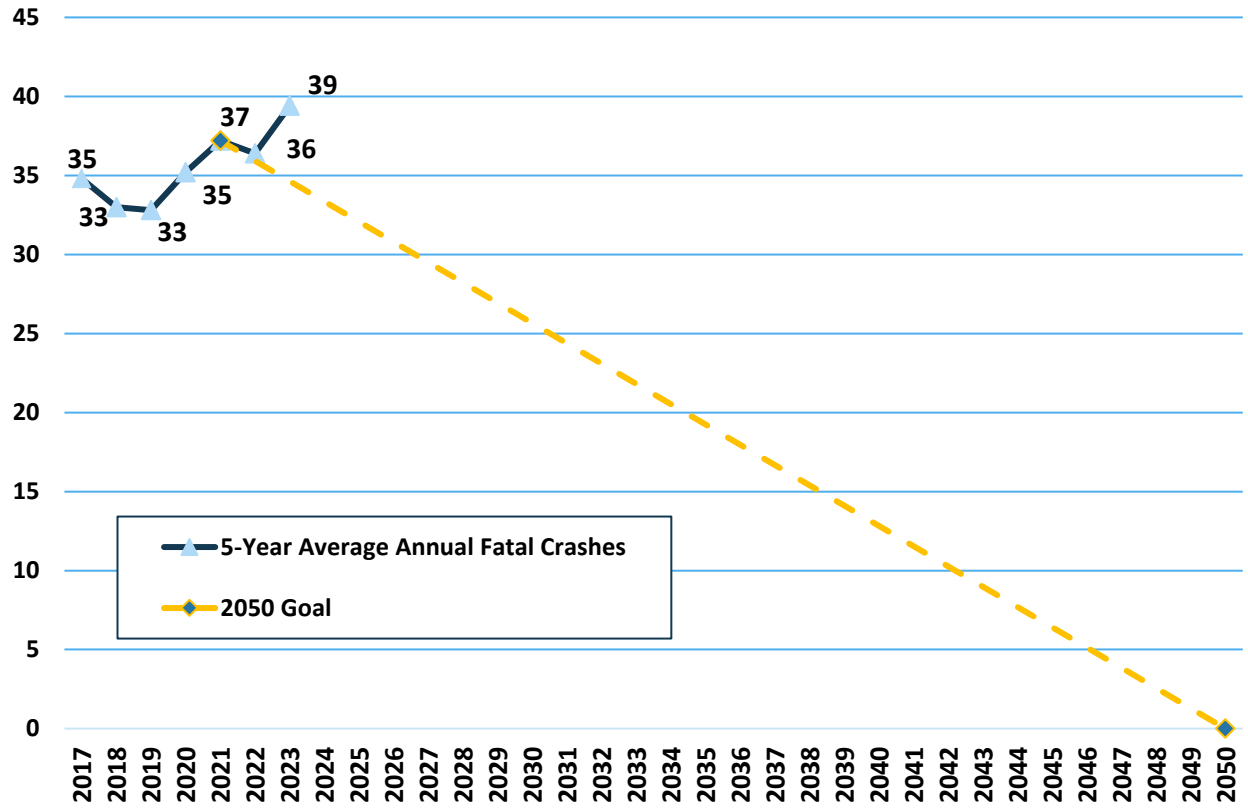

Figure 3. Fatal crashes compared to 2050 Goal Target (Five-Year Annual Average)

Figure 4 compares the number of fatal and serious crashes by crash type using data for the nine-year period of 2013-2021. This data was used for the development of the Atlantic County LRSP. Lane Departure, Aggressive Driver, Intersection, and Pedestrian/Bicyclists (shaded in blue) are the plan emphasis areas.

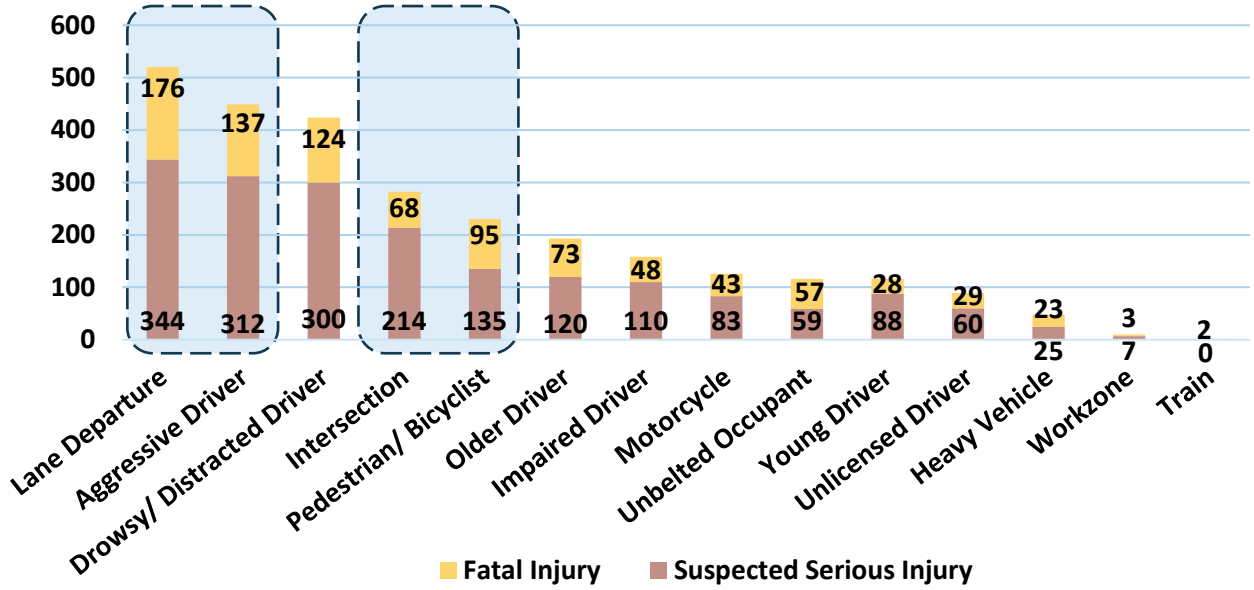

Figure 4. Atlantic County Fatal and Serious Injury Crash Totals by NJ 2020 Emphasis Areas (2013-2021)

Figure 5 provides a similar comparison using data from the latest available, nine-year period, 2015-2023. The primary change from Figure 4 is that Aggressive Driver has become the predominant crash type, surpassing Lane Departure.

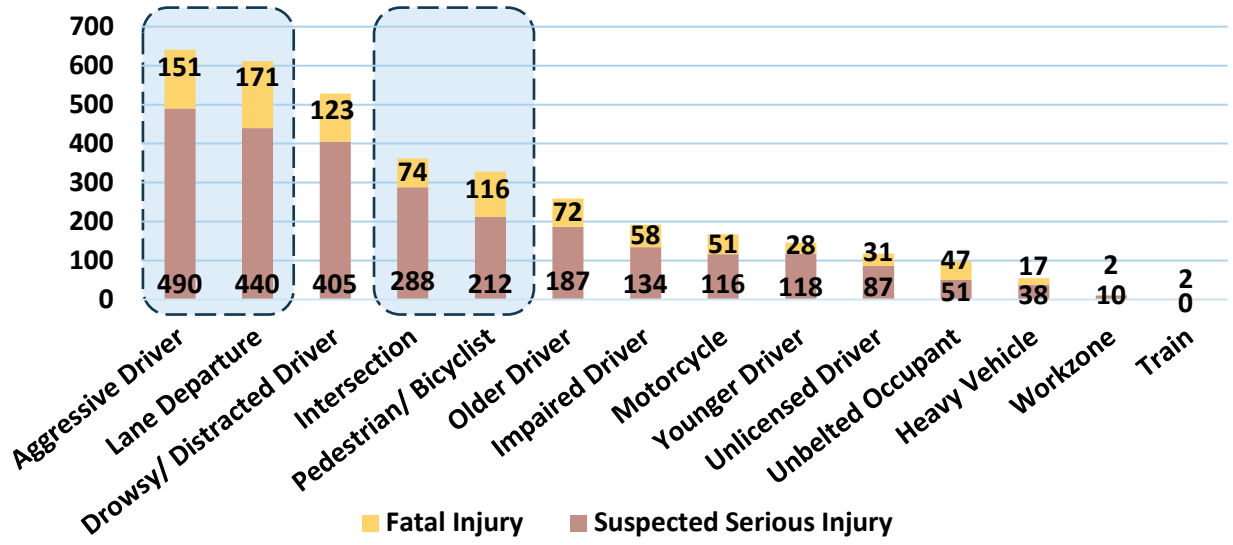

Figure 5. Atlantic County Fatal and Serious Injury Crash Totals by Crash Attribute (2015-2023)

Infrastructure Implementation Efforts

Priority Projects on County Roads

The following is a list of the priority projects on county roads and their status as of the end of Implementation Year 1.

Priority Projects	Status
Delilah Road (CR 646) from North New Road to Fire Road, City of Pleasantville	Not currently advancing
Intersection of Zion Road (CR 615) and School House Road, Egg Harbor Township	Not currently advancing
Landis Avenue/Cedar Avenue (CR 540), from Union Road to Harding Highway, Buena Vista Township	Implementing rumble strips on Union Road[1]
Intersection of Delilah Road (CR 646) and English Creek Road, Egg Harbor Township	Not currently advancing
Tilton Road (CR 563), from Jackson Avenue to North of Fire Road, City of Northfield and Egg Harbor Township	Replacing traffic signal controllers
Pitney Road/Main Street (CR 575) from Chestnut Neck Road to US 9, City of Port Republic	Drainage work is in design phase[2]
South Main Street (CR 585) and West Park Avenue, North Main Street and Leeds Avenue, City of Pleasantville	Main Street and West Jersey intersection in the vicinity of the rail crossing is now under contract for construction[3]
Fire Road (CR 651) from Hingston Road to Roosevelt Avenue, Egg Harbor Township	Signal planned for Fire Road and Hingston Road[4] Repaving and widening Fire Road from Black Horse Pike to Delilah Road
Weymouth Road (CR 559) from Private Road to Hamilton - Hammonton border, Hamilton Township	Not currently advancing
Rectangular Rapid Flashing Beacons on Tilton Road (CR 563), City of Northfield	Not currently advancing

[1] Residents on Landis Avenue objected to rumble strips.
[2] Expected to be advertised in Summer 2026.
[3] Construction expected in Spring 2026. Pleasantville's Safe Routes to School grant does not include improvements at these intersections.
[4] Design to begin in 2026.

Priority Projects	Status
New Crosswalks at the intersection of Landis Avenue and Cedar Avenue (CR 540), City of Buena Vista	Not currently advancing
Upgrade Crosswalks at 215 locations – City of Absecon (1), Atlantic City (187), City of Linwood (1), City of Longport (1), City of Margate (8), City of Pleasantville (2), City of Ventnor (15). Locations are provided on attached list.	Ventnor Avenue crosswalks have been upgraded Jerome Avenue is slated for design in 2026

Priority Project Locations on Municipal Roads

The following table lists priority locations on municipal roads identified in the LRSP and the status of implementation.

Priority Projects	Status
Rectangular Rapid Flashing Beacons (13) – City of Absecon (1), Atlantic City (4), Egg Harbor Township (2), City of Linwood (3), City of Margate (1), City of Pleasantville (2). Locations are provided on attached list.	Linwood received a Safe Routes to School grant which may include some or all these locations (Oak Avenue, Seaview Avenue, and Patcong Avenue). Status unknown on others
New crosswalks in Atlantic City (3). Locations include Morningside Avenue and Ohio Avenue, Kentucky Avenue and Mediterranean Avenue, Pacific Avenue and New Hampshire Avenue	Status to be determined
Upgrade Crosswalks (38) – Longport (1), Margate (18), Somers Point (1), Ventnor (18). Locations are provided on attached list.	Somers Point received a Safe Routes to Transit grant for crosswalk improvements that may include this location (Bethel Road and Groveland Avenue). Status unknown on others

SJTPO developed on-line information webinars to educate municipalities on low-cost infrastructure treatments as well as available funding sources.

Behavioral Strategies Implementation Efforts

The LRSP Steering Committee established three strategies and specific actions that could be advanced. The following table describes the three strategies, the actions set (priorities in bold), and efforts made by stakeholders in Atlantic County during Year 1 to advance these strategies.

Strategy	Action	Efforts
Awareness via Social Media	Conduct Campaigns leveraging Community Volunteer Groups **Conduct Campaigns leveraging Student Councils/Organizations**	Atlantic County Office of Highway Traffic Safety works with the Brain Injury Alliance and the NJ Bicycle Pedestrian Coalition to assemble social media messages. These are called "thunderclap" posts sent out every Tuesday at noon where various law enforcement, educational, and volunteer committees share the same safety messages and try to reach a broad audience by flooding social media. Oak Crest High School in Hamilton Township created a video on e-bike and scooter safety that was posted on the Township Facebook page and entered in the NJ Brain Alliance competition.
Educate through Schools	Expand "Adopt a Cop" program from Egg Harbor Twp **Host mock crash events at high schools**	Atlantic and Cape May County currently have a non-motorized grant for the "Cops in Crosswalks" program to offer pedestrian enforcement. This starts with an educational component then after 3-4 months, it transitions into issuing summons for non-compliance. This strategy involves a mix of education and enforcement. Local hospitals have reported an increase in e-bike crashes. Atlantic County Office of Highway Traffic Safety has assembled a presentation on e-bike safety and will be presenting it to each of the high school Juniors and Seniors. Atlantic County Office of Highway Traffic Safety plans to identify Traffic Safety Ambassadors at each school and utilize them to attend Egg Harbor Township's mock crash event. The goal of assigning Traffic Safety Ambassadors to attend the mock crash event is for them to capture it on social media and spread awareness.

Strategy	Action	Efforts
Enforcement	**Visible enforcement campaigns, especially during rush hour** Have Local Law Enforcement agencies adopt Traffic Safety Plans for local towns	Atlantic County Office of Highway Traffic Safety receives annual grant funding to promote national safety campaigns like “Click it or Ticket” and “Drive Sober or Get Pulled Over.” While this is Enforcement driven, there is also an awareness/social media piece as the local law enforcement agencies announce their presence and campaigns on social media.

Public and Stakeholder Coordination Efforts During Implementation Year 1

Steering Committee Meetings

The Atlantic County LRSP Steering Committee met periodically during Implementation Year 1 to review progress in advancing infrastructure and behavioral strategies and identify actions that could be advanced. Steering Committee meetings were also used to plan the Implementation Stakeholder Workshop.

- Steering Committee meeting 1 was held March 6, 2025. The meeting objectives included setting Year 1 goals for infrastructure and behavioral strategies and taking first action steps.
- Steering Committee meeting 2 was held August 26, 2025. The meeting objectives included following up on the infrastructure and behavioral advancements, discussing information resources that would be helpful to municipalities, and planning for the Implementation Stakeholder Workshop.
- Steering Committee meeting 3 was held January 29, 2026. The meeting objectives included reviewing the outcome of the Implementation Stakeholder Workshop and solidifying actions and next steps to advance the LRSP.
- The final Steering Committee meeting 4 was held on March 31, 2026 to share the Implementation Year 1 report.

Implementation Stakeholder Workshop

A stakeholder workshop was held November 12, 2025. Workshop objectives included providing the status of implementation of the Local Road Safety Plan Infrastructure projects and behavioral strategies, and to identify ongoing and potential behavioral related actions that could be implemented. The workshop also included a discussion with attendees on how to sustain plan progress for the next four years.

Key outcomes of the workshop included:

- Sharing infrastructure priorities and status with stakeholders
- Sharing behavioral strategies and actions with stakeholders
- Identifying and capturing ongoing efforts in the county to improve road user safety behavior, some of which align closely with the LRSP priority strategies and actions
- Creating opportunities for increased collaboration by connecting new stakeholders to the LRSP

Communication with Stakeholders during Implementation Year 1

The project team used newsletters, websites, and social media throughout the year to inform the public and stakeholders of the plan's progress.

Implementation Year 1 Challenges and Lessons Learned

Stakeholder Engagement

Keeping stakeholders engaged in the process and encouraging them to take on leadership roles is important. We recommend the following strategies to improve engagement:

1. Consider including LRSP conversations/decision making in conjunction with other committees/meetings.
2. Keep the number of actions manageable.
3. Have a regular, simple progress reporting process.
4. Recognize leaders/volunteers as often as possible.

Infrastructure Implementation

Municipalities have small transportation infrastructure budgets and often use them for state-of-good repair projects. Prioritization of safety improvements can be a challenge. Identifying funding sources and developing applications for competitive grants is a key to implementation on municipal roads.

SJTPO developed two (2) videos to aid municipalities: Infrastructure Implementation and Funding for Safety Improvements. These videos are available at https://www.youtube.com/channel/UCzdoMUOQ4-umcnlWB5lCxGQ

Behavioral Strategy Implementation

Due to lack of funding and staff, municipalities are often not able to engage in road user behavior improvement initiatives. We recommend engaging school districts as an alternative.

SJTPO developed two (2) videos that can be valuable to municipalities: Behavioral Strategies Implementation and Funding for Safety Improvements. These videos are available on https://www.youtube.com/channel/UCzdoMUOQ4-umcnlWB5lCxGQ

Implementation Year 2 Priorities

Infrastructure Priorities

The following infrastructure improvements are a focus for Implementation Year 2:

- Fire Road (CR 651) from Hingston Road to Roosevelt Avenue, Egg Harbor Township
  - Fire Road and Hingston Road intersection improvement design
  - Repaving/widening Fire Road from Black Horse Pike to Washington/Delilah Road
- Main Street and West Jersey intersection improvements, City of Pleasantville
- Looking into Pleasantville Safe Routes to School funding to see if they can advance any of the plan intersections
- Complete the design of the drainage improvements at Pitney Road and Main Street, City of Port Republic
- Systemic treatment priority Year 2 locations were not selected because the committee would like to review a detailed list of their locations.

Behavioral Strategies and Action Priorities

The following strategies are a focus for Implementation Year 2:

- Continue with the e-bike/e-scooter safety presentation/education
- Continue the Thunderclap social media campaign and expand to schools to engage students
- Initiate coordination between the Atlantic County Office of Highway Traffic Safety and other counties.

Sustaining Leadership and Participation

The following actions will be taken by LRSP leaders as a priority for Implementation Year 2:

- The Steering Committee will endeavor to meet twice in Year 2 to follow up on progress of plan implementation.
- SJTPO will assist Atlantic County in tracking implementation of infrastructure and behavioral strategies via a survey or other format.
- Atlantic County Office of Highway Traffic Safety will put the LRSP on the agenda of the Atlantic County Safety Task Force.
